

# Irrigation & Fertigation Kit

## AUTOMATIC WATERING DRAIN AWAY SYSTEM

---

Your Kit Includes:

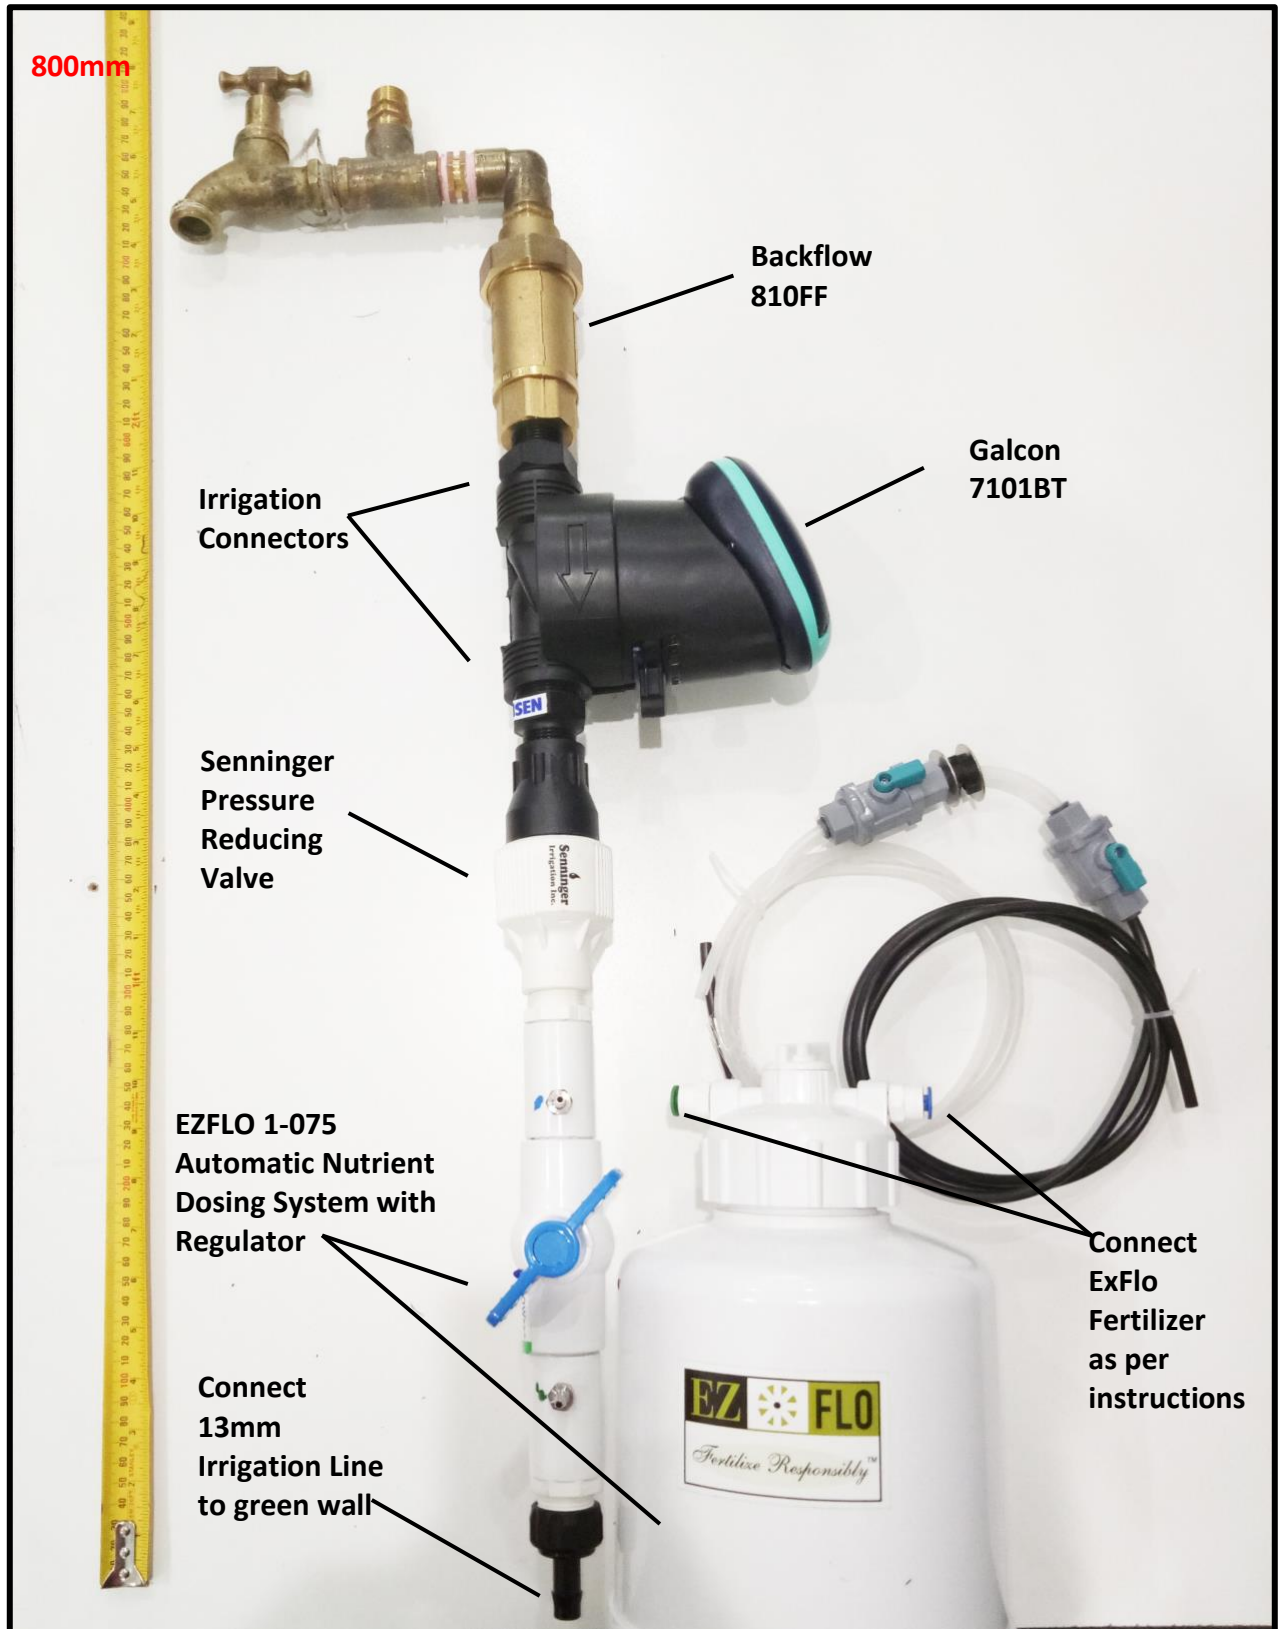

- **Galcon 7101BT** - Bluetooth single station controller with integrated in-line valve.  
**Note:** Batteries to be replaced every 4 months.
- **Senninger Pressure Reducing Valve**  
Reduces tap water pressure from 400-450kpa to 178kpa.
- **Backflow 810FF** Protects from water backflow contamination.
- **EZFLO 1-075 Automatic Nutrient Dosing System with Regulator**  
Smart Fertilization dosing through your irrigation system.
- **Hortico** An excellent all purpose soluble fertiliser that can be added to the fertigator applicator. (If Hortico is not available a similar product will be substituted)
- **Irrigation Parts**  
A selection of basic irrigation parts and connectors will be supplied with this system.
